

BLOCKCHAIN INNOVATION

# Method assets

GBS Method

## Blockchain Innovation

The [\*\*IBM Blockchain Innovation Method\*\*](#) is a new GBS approach to Blockchain Advisory engagements. This method provides practitioners with a structured 6-stage approach for an end-to-end implementation of a Blockchain solution. It is intended to offer guidance rapidly moving a customer from the “proof of technology” to a scaled implementation of a Blockchain solution.

### Videos in this series:

- IBM Blockchain Innovation Method Overview
- IBM Blockchain Innovation Method Opportunity Management
- IBM Blockchain Innovation Method Solution Design
- IBM Blockchain Innovation Method Solution Delivery

These courses offer *Think40* credit.
